

AUX-ODU-INJ-G

AUX-ODU-INJ-G is an outdoor DC injector with built-in lightning protection compatible with all InfiNet Wireless outdoor units. It greatly reduces complexity of the deployment in the cases where DC source is available on the rooftop eliminating the need of weather-sealed cabinets and thus reducing both capital expenditures and total cost of ownership. Its built-in lightning protection meets highest industry standards mitigating sudden power surges and serving as a first-line protection to the power supply and the outdoor unit or the network switch/router connected to the radio.

Key Features

- ▶ Compatible with all InfiNet products
- ▶ Fully rugged design compliant to the highest industry standards
 - GR-1089 for lightning protection allowing reliable operation in the regions with highest lightning activity
 - IP66/IP67 for water/dust protection facilitating extended operational life in coastal or desert areas as well as in the areas with frequent rains, snowfalls, etc.
- ▶ Can be installed both indoors and outdoors
- ▶ Gigabit Ethernet pass-through
- ▶ Rapid and easy deployment
